

DATASHEET ACOUSTITEK

Passive HiFi Speaker developed by PoliTeK Student
Team - Polytechnic University of Turin

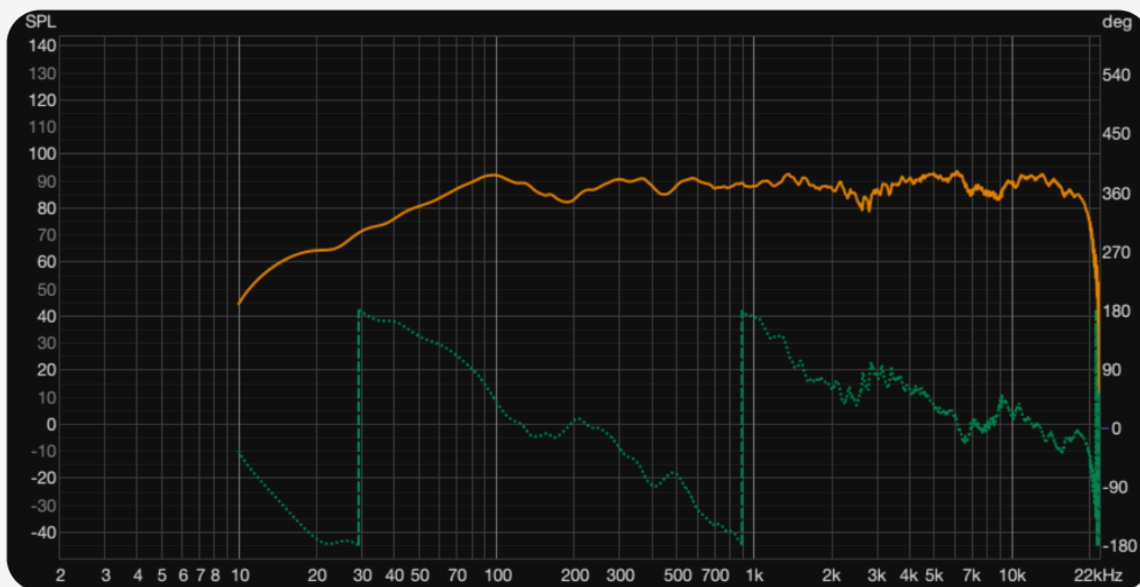

OVERVIEW

The **AcoustiTeK** is a passive, two-way, HiFi bass reflex loudspeaker designed for home studio use. With an 8" woofer and 3/4" tweeter crossed over by a hand-assembled second-order passive network, it delivers linear frequency response from 50 Hz to 20 kHz without artificial tone-shaping or digital processing.
